Our environmental sustainability

When it comes to the Environmental sustainability, the Unimarine Group is proud to say that we were the first company in our field who introduced to the market the Replacement of Solvent products with water based strong cleaners.

Our products / FUEL OIL TREATMENT

FOT LI 4100

FOT DUAL PURPOSE

FOT STC

FOT CATALYST

UNICLEAN BREAK
(DEMULSIFIER)

VANASOLVENT

FOT BIO CONTROL

SOOT REMOVER LIQUID

SOOT REMOVER POWDER

FOT SLUDGE DISPERSANT

THIS PRODUCT OFFERS VERY GOOD SOLUBILITY AND THEREFORE DOES NOT NEGATIVELY EFFECT FILTERABILITY CHARACTERISTICS OF THE DOPED MIDDLE DISTILLATE.

FOT LI 4100

LUBRICITY IMPROVER FOR GAS OIL,
DIESEL OIL AND MIDDLE
DISTILLATES.

FULL OIL TREATMENT

Description

FOT LI 4100

- ✓ Lubricity Improver for Gas Oil, Diesel Oil and Middle Distillates.
- ✓ This additive has been developed to meet the industry's most stringent performance requirements.

FULL OIL TREATMENT

Description

FOT LI 4100

- ✔ Non-metallic, phosphorus free lubricity improver for use in low sulphur diesels and other middle distillates, which posses poor lubricity characteristics.
- ✔ Blend of long chain carboxylic acids.

FULL OIL TREATMENT

Benefits

FOT LI 4100

FOT LI 4100 is extremely effective at protecting rotary fuel injection equipment from wear when operating with fuels of low intrinsic lubricity, such as gas oil and diesel oil.

Demonstrates excellent lubricity improving characteristics by both HFRR and SLBOCLE bench test procedures.

FULL OIL TREATMENT
