

Face Shield With Handle

Item No.: 361362517

Product information

Hand held face shield that welders can use to protect their eyes and face from rays, heat and sparks during welding. It is made from a lightweight, robust plastic material which is unaffected by heat, cold or moisture, and both glasses and shields conform to relevant EN standards. It is also designed to protect the hand holding it from radiation. To guard the welder against the danger of electric shocks, burns, ultra-violet rays and bits of welding slag in the eye, proper protection is extremely necessary.

- Shade 11 dark glass and clear protection glass are included with the face shield as standard.

Features

- Conforms to relevant standards: CE approved and conforms to EN 175: 1997
- Sturdy lightweight design

Benefits

- Comfortable to use
- Provides safety and long lasting quality
