

Safety Electrode Holder 600A with Connector

Item No.: 361362931

Product information

A 400A electrode holder assembly that has 3m of super flexible 50mm² cable and safety connector extension. Our lever screw type, fully insulated electrode holders, feature an especially robust and safe clamping arrangement for the electrodes. We have available three types of electrode holders: the 200A, the 400A and the 600A.

Features

- Fully insulated electrode holder with the lever screw locking mechanism design
- Strong and simple construction
- In accordance with Standard 2006/95/EEG concerning low voltage, and conform to EN 60974-11
- For use with extension cables where safety connectors are used

Benefits

- Prevent accidental electric arc sparking as no exposed conductive components
- ‘Plug and Play’ with 3m cable for use with safety connectors welding cables extension
- Offers higher protection from electric shocks or electrocution for welders compared to other design of electrode holders

Specification

General:

Invent Hazard Material (IMO/EU) classification	NA
