

Earthing Clamp 400A

Item No.: 361362921

Product information

400A clamp with jaw opening 70 mm. An earth return clamp, must be as closest to the welding piece as possible and not to the hull, based on the Code of Safe Work Practice for Merchant Seafarers (COSWP, UK): 24.7.3. The return connector must be properly dimensioned to provide good contact for the welding current load to be used. We have three types of earthing clamps available: the 400A, 600A and 800A.

Features

- Provide a large contact area with less overheating
- Good contact with the workpiece
- Strong grip that permits attachment to any work piece

Benefits

- Secured return on work piece reduces circuit resistance and provide a stable voltage which ensures good welding quality
- Compliance to OCIMF SIRE 2.0 electric arc welding safety requirements

Specification

General:	Invent Hazard Material (IMO/EU) classification	NA
